Dear Mr. Warnock:

Your Interim Mining Plan for Navajo Allotted Mining Lease N00-C-14-20-8396 is approved pursuant to the following conditions and requirements:

1. This office reserves the right to require any mine plan changes deemed necessary to eliminate or mitigate any unforeseen adverse environmental effects caused by this project.
2. Any changes or modifications of the Interim Mining Plan must be approved by the Mining Supervisor prior to implementation.
3. No waste dumps or ore stockpiles will be placed on the lease surface without written approval from the Mining Supervisor.
4. The underground mining operations will not proceed more than 500 feet east and 200 feet north and south from the point of underground entry into Lease -8396. The operations will not be extended beyond these limits without approval of the Mining Supervisor.
5. Pillar extraction will not commence until authorized by the Mining Supervisor. Prior to authorization, the lessee will submit the results of all completed exploration to demonstrate that pillar extraction under the Interim Mining Plan will not interfere with, or prohibit recovery of, other ore reserves.
6. The boundaries of Lease -8396 will be adequately marked in all underground workings as appropriate.
7. Ore extracted from Lease -8396 will be segregated from all other ore and will not be commingled with any other ore until final mill assays have been obtained. Monthly ore production from Lease-8396 will be reported to the Mining Supervisor.
